GCSE Information Evening for Year 11

Thursday 27th September 2018 6pm – 7pm

Dear Parent/Carer,

Your child will be working hard towards their GCSE's at the end of Year 11 and we want to support them in attaining the best grade possible. We would therefore like to invite parents and students of Year 11 to a GCSE information evening on Thursday 27th September 2018 between 6-7 pm.

The evening will give you valuable information about how the new 1-9 grading system works, how you as parents can best support your child to succeed at home, effective revision strategies and also key dates on the calendar. There will also be presentations from each Head of core subjects (Maths, English and Science) with important course information and practical tips on how to succeed in each subject. In addition, there will be a presentation explaining the different requirements for different areas of study for when your child leaves school as these vary dependent on the course or course provider.

There will be an opportunity after the presentations to speak to staff and discuss any questions or queries you may have with regards to your child's GCSEs.

We look forward to seeing you at the evening.

Yours sincerely,

Mrs R Chantler and Ms G Kennedy

(Assistant Headteachers)
